FRIDGE-SEAL

Identify your seal

Finding the right seal profile can take time because there are so many to choose from. The best way to identify is to cut through the seal and take an end on photo of the cross section.

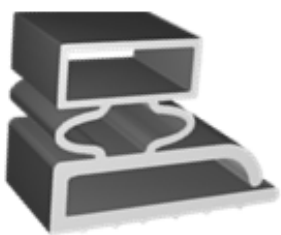

✓ Right

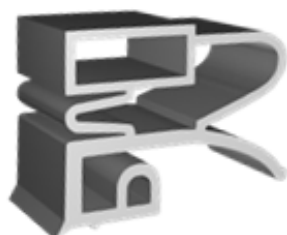

✗ Wrong

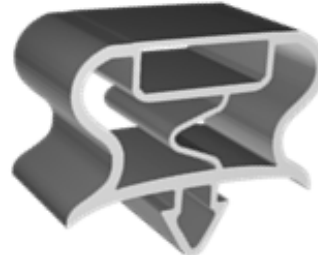

Take care to check the important measurements such as the height and width of your seal, the size of the dart/arrow or flap.

Flap Profile

Hook Profile

Dart Profile

Block Profile

Can't find your profile?

Please send us a clear cross section photo of your seal via Email. The Brand of the fridge and seal measurements also help us a lot.
